

Property Policies

110 2nd Street Auburn Maine 04210

Parking

A small amount of off street parking is located in front of the Second Street property. However, unlike Lewiston, Auburn permits residents to park on street year round. When on street parking on Second Street, please be mindful of snowstorm parking bans. GFDG recommends checking with your local news outlets and the [City of Auburn](#) website during all snow events to be prepared for any citywide parking bans.

Snow Procedures

Great Falls Development Group contracts an outside company to provide snow plowing and shoveling services. Second Street will have its respective parking area plowed after any significant snowfall. If at all possible, please coordinate temporary moving of your vehicles in the event the plow comes to your building. This will provide the person plowing the ability to do a quick and efficient job and make the driveways that much better to park in afterward. At all properties, shoveling, sanding and or salting of walkways will also be done after significant snowfalls. If you find the walkways too slippery, GFDG provides salt and sand at each building. Please feel free to sand and salt, or call GFDG to report the situation.
